A MESSAGE FROM THE CHAIRMAN

A CLEAR VISION

To be the partner who helps its customers to better manage their workshops, using our software solutions to help them generate more profits and have more free time. To become the world leader in workshop management software.

OUR MOTIVATION

Contribute to our customers' success by providing a global solution that forces them to measure themselves and take appropriate action to transform their businesses.

OUR COMMITMENTS

To offer software that can evolve and be parameterized according to the changing reality of each of our customers. Deliver high-performance management software that's simple to use on a day-to-day basis.

Mathieu Brunel

President & CEO

GEM-CAR®

“ In addition to your book-keeping ”

No matter which accounting software you use, GEM-CAR consolidates all your company's management activities online. (in addition to your bookkeeping)

Reducing costs. As GEM-CAR is a Software as a Service (SaaS), all data is stored in the cloud. As a result, you no longer need to install and run applications on your own computers. Hardware acquisition costs are eliminated, as are data entry and maintenance costs.

Comprehensive, accessible and intuitive business management software. A multi-branch, multi-lingual and multi-currency platform.

GEM-CAR is an accounting software that you can always extend with additional modules. What's more, our user-friendly interface makes it quick and easy to get to grips with the platform. And of course, we know that your time is precious, which is why GEM-CAR is a complete and affordable solution to all your business needs, easy to integrate into your current operating mode.

GEM-CAR - is a complete, web-based accounting software package. Above all, it links all aspects of business management, from data entry to invoicing, financial reporting and much more.

ACCESSIBLE, INTUITIVE BUSINESS MANAGEMENT SOFTWARE

A multicompany platform

You will love GEM-CAR because:

1. You can access it from any device, as long as you have an Internet connection. These can be PCs, Macs, iOS or Android devices.
2. You'll save time by eliminating the need to repeatedly enter data into multiple accounting, management and administration programs.
3. Your accountant will be able to access your accounts directly on the web.
4. It's very easy to use. Resources such as frequently asked questions and a support hotline will quickly make you self-sufficient.
5. It's absolutely safe, thanks to our real-time control systems and monitoring protocols.
6. Say goodbye to updates, backups and network failures.

Security

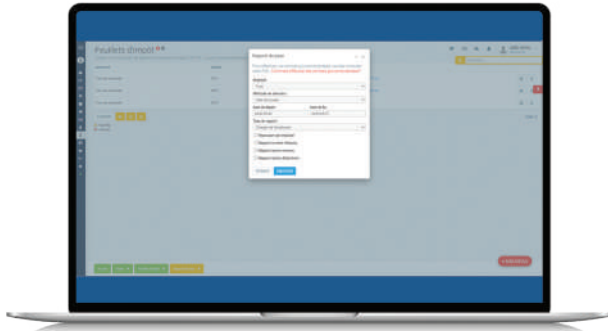

Choose from a number of predefined roles that give specific access to a group of users.

Log of all changes made to the platform, with date and user modifications.

ACCOUNTING MODULES

GEM-PAYE

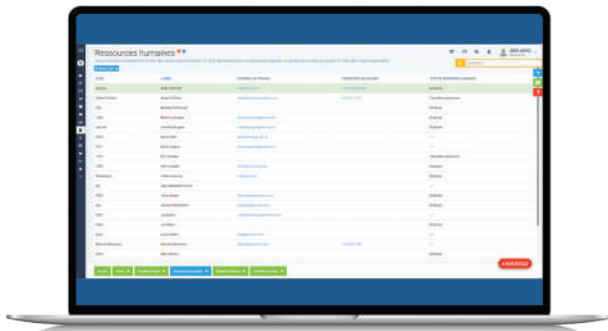

Payroll

GEM-PAYE is our online payroll module that enables you to pay employees by direct deposit, while centralizing payroll and human resources data. In addition, it produces annual taxable income summary reports, records of employment and automobile expense reports. Payroll table updates are seamless and automatic. Save valuable time with GEM-PAYE's employee payroll function. Working with GEM-BOKS and GEM-PAYE means working with modern accounting software that emails pay stubs to employees all at once.

RH

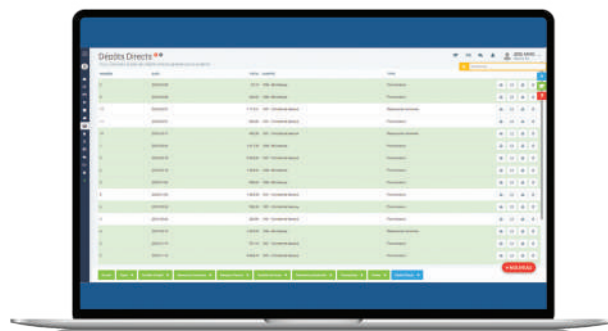

Human Resources

Human resources management module
Document management: CVs, contracts, photos, and end-of-contract documents. Job descriptions, date of hire, date of last CPR course, etc. Sensitive information: salaries, social insurance numbers, bonuses, dates of birth, one-click access suspension or cancellation.

PAYMENT

Get paid quickly by e-mail and SMS

Integrated SMS and e-mail payment solution for GEM-CAR. Enter your payment provider's details and customers will be able to pay you by credit card, in automatic debit.

Capture a supplier invoice from an image
Upload a supplier invoice to your computer, take a picture of it with your smartphone and turn it into a transaction.

DATA IMPORT AND CONFIGURATION

Implementation in 3 steps

Step 1: Configuration

General ledger import and configuration

Step 2: Initial assessment

Enter your initial trial balance or opening balance

Step 3: Data import

Transfer up to 5 years of history from Sage 50 or Acoma, or import only the chart of accounts, your receivables and payables.

SECURED DOCUMENT

Sharing confidential documents

Developed in collaboration with leading North American accounting service providers to offer a secure document sharing module that meets the needs of professionals handling confidential data. GEM-DOC is a secure cloud-based software solution for managing secure documents and electronic signatures. Customers can connect to our solution to access files. All hosted on Canadian servers.

SIGNATURE ÉLECTRONIQUE

Module impôts sync pour DTMax et Tax prep

Electronic signature module for approval of quotations, work orders, replacement vehicle rentals, verbal authorizations for additions, vehicle release slips and final invoicing. Automated for T183 and TP1000 forms. Tax sync module for DTMax and Tax prep

Send all your DTMax tax reports to your customers in a secure folder in just a few clicks. Ask for a signature on T183 and TP1000 forms and get paid by credit card in the same operation.

API

Building an e-commerce solution with Shopify or WooCommerce

Use it in-store directly from your cash registers. What's more, you can easily integrate your favorite e-commerce application to synchronize your physical inventory in real time and manage the accounting side of GEM-CAR.

Connect our API with Shopify and the WooCommerce plugin for Wordpress.

CRM

Easily connect GEM-CAR to Mailchimp for mass mailings.

Our CRM module, a customer relationship management solution, automates the flow of e-mails, text messages and marketing campaigns. Our tool automatically unifies communication from multiple platforms such as Gmail, Outlook and Yahoo. It's an easy way to promote the work at hand, as well as to send out promotional campaigns.
